Report on the feedback acquired from various stake holders of SCIT

Year: 2021 - 22

FEEDBACK FROM STUDENTS:

We collect feedback from our graduating students. We have designed a feedback form inculcating the views and suggestions on curriculum development received from them. We also collect feedback from students on faculty performance.

Latest courses structured well as per industry needs in IT field. Has helped to imbibe both technical and managerial expertise.

FEEDBACK FROM ALUMNI:

Our alumni feedback is valuable for us as it provides us the inputs regarding improvement in facilities and employability of our student as well as their views on curriculum and look forward to improvise on the curriculum in the following year's Program Structure. No suggestions were given on course curriculum.

RECRUITER'S FEEDBACK:

Our recruiters are one of the major stakeholders, feedback of whom gives us input regarding enhancing the employability of our students. Their feedback is valuable for us as it provides the basis for further enrichment in curriculum aspects and overall performance of students. We have received feedback from our major recruiters.

We have collected feedback from the recruiters where along with the other aspects about the institution, we also ask our recruiters to comment on the curriculum. In general the recruiters seem to be happy with our student's performance. The feedback suggested is considered for further consideration and approval as applicable to be included in the curriculum.

Cloud Security and Web 3.0 were suggested to be included in the program structure.

FEEDBACK FROM FACULTY:

We collected the feedback forms faculty members of SCIT regarding the Curriculum and any changes in the curriculum suggested. All the faculty members give feedback every year.

Moreover some faculty members from our institute contributed in syllabus restructuring or suggesting new courses in the upcoming academic year's curriculum. Some of the suggestions made by the faculties are put forth in the BoS of the FoCS.

Generative Adversarial Networks, Knowledge Graph, Natural Language Processing, Business Model Innovations, Digital Technology Transformation, Digital Leadership, Cloud Security.
