  - Got promoted through social media.
8. Brief Report  
Every year, the Guest Lecture Committee (ITBM) of Symbiosis Centre for Information Technology hosts a conclave called 'Integrity and Ethics Conclave'. This conclave is a flagship event where industry leaders and experts, as well as students and corporate professionals from all over the nation, come together on a single

platform to celebrate the need and importance of Integrity and Ethics not only in the workplace but also in everyday living.

The theme of the 5th Edition of the 'Integrity and Ethics' conclave was 'Sinless Cipher - Collaboration for Better Surveillance'. The United Nations

Secretary-General's Roadmap for Digital Cooperation was the inspiration behind the theme for this year's conclave. With everything moving online due to the pandemic, the vulnerabilities are at an all-time high. Even after the increasing benefits due to digitization, there are numerous challenges that are encountered such as violation of human rights online, cybersecurity threats, and the digital divide. As per the Roadmap put up by the Secretary-General of the United Nations, there are 8 key areas of action. 4 of these 8 key areas of action are the sub-themes of our event
