### CSAM 2021 Theme: CYBERVOR - The evolving model of Rectitude

This year's theme aims to prepare everyone for taking proactive measures to safeguard their data and recover from any attack. CYBERVOR is an abbreviation for a 'Cyberspace Survivor'. The Covid-19 Pandemic has completely changed the ways organization operate and the ways we work, play, communicate and fundamentally function. This transition has comparatively been easier for young adults and children who were born in this digital era. The escalating tensions between the countries of the globe are a major reason why we might pause and ponder on the necessity for global cyber governance.

Our theme focuses on spreading awareness on Cyber Laws and Citizen Rights, Attack on personal devices, Attack through malicious sites, Blind consent on agreements, ease over security, Flawed security practices, surfing smartly, sharing less and thinking first. The aim is to raise awareness on how individuals can get justice for being a victim of any cybercrime.
